MISSION AND AMBITION

Rotom facilitates your logistics

Facts & Figures

Menu

Strenghts

OUR MISSION

The mission of Rotom is to bring added value for our customers in their supply chain by offering the best logistic products, services and solutions.

Rotom helps professional international companies in Europe to optimise their supply chain, so they can focus on their primary process.

The core values of Rotom are:

- **quality,**
- **reliability,**
- **flexibility** and
- **solution-oriented thinking.**

OUR AMBITION

The ambition of Rotom is to be a leading company in load carriers in Europe, to facilitate and improve the supply chain of our customers with the best logistic products, services and sustainable solutions.

Rotom helps to achieve cost reduction and to improve operational excellence for our customers. In short; facilitating the logistic chain of the customer.

STRENGTHS

Rotom facilitates your logistics

Transparency

Rotom provides insight into the supply chain process

Professional

Rotom works with contracts, SLA, KPI's and communication matrix

Geographical

International network of own companies to secure deliveries

Peak times or extra demand

Rotom has a large stock at your disposal

Product range

Large product range

Financial

Financial strong party, payment conditions, continuity

R & D department

Design on customer demand, the right solution/product

SUSTAINABILITY

To achieve more with less...

Strenghts

Menu

Wooden pallets

Sustainable Development for Rotom means using experience and innovation to increase efficiency and productivity with less impact on the environment.

It also means helping our customers to do the same – enabling their business to become more productive by providing products, services and solutions that use resources more efficiently.

How do we achieve this goal?

By usage of returnable transport items. We reduce the consumption of new material and optimize transport in the supply chain.

What do we gain?

- reduction of CO² emissions
- decreasing of energy consumption
- reduction of generated waste
- saving our forests

Let's do it together!

DID YOU KNOW THAT...

Implementing pooling service, packaging recovery solution or RTI Management offered by 2Return, will maximize re-usage of packaging, reduce purchase of new packaging and decrease CO² emission

More information you can find on the 2Return website.
